

Astor Markhor

Flare-horned markhor (*Capra falconeri falconeri*) is a subspecies of the Markhor, native to Kashmir and northern Pakistan

The habitat of these animals is in the Gilgit, Skardu and Astor regions of Northern Pakistan in the valleys which branch off from the River Indus. In comparison with the Kashmir, their horns curves are wider. Like the Kashmir, the Astor is in the flare horned Markhor category. It is possible to hunt the Himalayan Ibex and the Markhor in combination. Found in Jutiya, Kargah, Dashkin, Bunji areas of Gilgit and Baltistan Astor.
